Re: Recommendation

To Whom It May Concern:

Having practiced law for over 30 years, I have worked with many accountants in my divorce practice. Recently, I worked with Andrea in two complicated multi-million dollar marital property division cases. Andrea was smart, proactive and thoughtful in how she proposed assets to be divided to accomplish the goals of our mutual client. Her expertise in accounting and tax helped achieve an equitable division of marital assets that saved the cost of litigation for all parties. Andrea was always pleasant to work with and quick to respond to questions or requests for edits to financial proposals. I won't hesitate to work with her again in the future and recommend her services without hesitation.

Thank you,

Marco J. Scalise
